

Managing Our Finances

God's Way

Discussion Questions – Session #1

Did you know before this lesson that God has given us so many Biblical principles for our finances? How does this knowledge affect your attitude towards God?

Look back at the wheel diagram in the lesson. Does God's pattern make sense to you? Does it surprise you that the world's way and God's way are exact opposites? Discuss those differences and how God's way is in your best interest.

How content are you with your present financial situation? Contentment does not mean having everything you want. It means being satisfied with-and grateful for-what you have.

What difference does it make when you consider that your money is on loan from God? Where will your money go, and how will it be used, once you have passed into eternity?

Rick reminded us that God wants us to love people and use money. When we use money for God, what is the potential outcome?

What does financial freedom look like from God's perspective? How would you live if you were financially free?

Assignment:

Complete **Financial Profile** Worksheet

(Worksheet is available at the KVC site. It is entitled "Worksheet Blank")

Start tracking all expenses (Goal is 4 weeks)
